About Miles for Myeloma
Miles for Myeloma began when a group of myeloma patients came together to organize a run/walk event to raise funds for multiple myeloma research at Indiana University. Rather than have the patients plan a standard participatory event, Dr. Abonour offered to cover the miles — and the state of Indiana — himself. He reasoned that as his patients travel from all parts of Indiana to visit him, he should make an effort to go to them. Since the inaugural event in 2005, Dr. Abonour and his fellow cyclists have covered more than 2,000 miles and raised more than $2.75 million for multiple myeloma research at the IU Simon Cancer Center. The three-day cycling event gives myeloma patients and their loved ones the opportunity to conduct personalized fund-raising campaigns to generate awareness about the blood cancer and raise funding for IU research aimed at improving treatments for this rare disease. This annual dinner and education symposium for myeloma patients and their families always follows the finish-line celebration. For more information about Miles for Myeloma, please visit www.cancer.iu.edu/m4m

Registration
Please register by August 28, 2015
