

IADEP

DIVERSITY IN CANCER RESEARCH POST-BACCALAUREATE PROGRAM

The Indiana University Melvin and Bren Simon Comprehensive Cancer Center (IUSCCC) is proud to offer the IUSCCC American Cancer Society Post-Baccalaureate Diversity in Cancer Research Education Program (IADEP), a two-year experience for recent grads planning to pursue doctoral degrees in biomedical science, healthcare, or in population health/public health.

IADEP will prepare you to submit a competitive application to a premier PhD or MD program. Participants receive a personalized professional development plan and hands-on research experience in a cancer center lab.

ELIGIBILITY

- ✓ Must have received an undergraduate science degree from an accredited U.S. college or university within 36 months of the program start date
- ✓ Must be a member of an underrepresented minority group, individual with a disability and/or an individual from a disadvantaged background
- ✓ Must be interested in applying to highly competitive PhD graduate or professional clinical programs related to cancer research, community engagement, and practice
- ✓ Must have a GPA of 3.0 or better
- ✓ Must be a U.S. citizen or permanent resident

FINANCIAL SUPPORT

- GRE test course
- Paid fellows health insurance plan
- Professional development course
- Fully paid tuition & fees
- **\$3,000** annual paid travel expenses
- **\$35,000** annual stipend
- **\$5,000** annual paid lab supply expenses

APPLICATION OPENS DEC. 1, 2024

Entry to IADEP is competitive and positions are filled as suitable applications are received. It is advised to apply as early as possible.
